

29 April 1992

Dear Director:

Congratulations and thanks for the programs you are providing cable viewers.

I would like to request an additional feature if technically possible and if congress would allow it.

When showing Congressional Committee meetings, hearings and floor debates, would it be possible to televise lobbyists and PAC contributors in the audience.

If they and the amount of their contribution to whichever congressperson speaking at the time were shown, it would allow voters to sort out these connections for themselves.

I believe if just these simple facts were shown without editorial comment or subsequent discussion by politicians, it would allow voters to draw some clear conclusions.

This may be too large a package to request but anything you can do along these lines would be appreciated.

Midland, MI 48640

Sincerely,
