

Hi Mr. Lamb: Just a reminder, sir.
De Toqueville, you know, is dead
and while I'm extremely interested
in History, I try to focus on the
actual FACTS, that is, what did
happen really, so I can work it
out for myself based on various
info, and my common sense.

Sure, De Toqueville had money, time,
and leisure, also insight, but what
did he contribute, besides opinion?
He did have a point of view but
was not a hero or icon, ok?
