

2-16-98

DEAR Brian Lamb,

About 7³⁰ AM I called C-Span. I have tried many times without ever getting the call to go through. This time the call went through. I was thrilled. I told the screener that I wanted to talk about something your Journalist had said. I was told he was only taking calls to talk about Presidents and hung up. I then sat down and listened to two callers talk about subjects other than Presidents. The Journalist had said Lawrence Walsh did not do outside work while doing the IRAN CONTRA investigation. He was blasting Kenneth Starr for doing it and also for leaking to the press. Walsh set aside one day a week to talk to the press. Don't take my word for it. Read "FIREWALL" the Iran-Contra conspiracy by Lawrence F. Walsh and please do a "Booknotes" on it. I am only looking for the truth to be told and I am not choosing sides.

O.W)

As to what happens in the Clinton Scandal there are lies being told by Journalists, Politicians, Lawyers, White House people and people who call C-Span. We are supposed to believe the Polls that are taken. Taking all this in consideration, am I to believe that all these people who are called on these Polls, are telling the truth? I don't. My point is I told the truth and got shut out and someone else lied and got on the program. I am sure you sit there and hear some of your

II

guests lie and some you don't know if they are telling the truth or not.

If everything coming out of Washington D.C. were the truth, the whole truth, I am certain there would be more people vote. As you may gather by now I don't like to be lied to. Just look at what goes on in Congress on the House floor. Look at how much time is lost getting them to shut up so they can continue. People in the real world don't act like that. At least they did not when I was working at Continental Steel.

I have only had Cable TV for two years. Can you imagine how thrilled I was to get in on the Phone line, just to be hung up on because I told the truth. Should I lie the next time? I think not. Now don't get me wrong, I think C-Span is one of the best things to come into my life. I am 70 years old and had a cancer operation 6 years ago. I do hope you do Book Notes on "FIREWALL". It would be very fitting at this time due to the Clinton Scandals. A lot of the same lies were going on then as now. Keep up the good work and I will continue to watch as long as I am here.

P.S. Do you know who hired Craig Livingstone?

Sincerely yours,

Kokomo Indiana
