

C-SPAN

Dear Mr. Lamb,

I watched your coverage of the debate in the Senate during the Budget Plan Reconciliation. It was good except for the interruptions for commercials. Sen. Kerry was making a brilliant plea for the President's Plan. He was honest in his criticism as well as his case for support. At a critical time in his speech he was cut off for advertising!! This is so destructive to C-SPAN! What good is Cable if we're subjected to such arbitrariness and unintelligent editing.

The commercial should have come after the speech - that would be responsible broadcasting!

I see C-SPAN and CNN becoming mercenary, Commercial and not worthy of top rate evaluation. Very disappointing. I hope you can change these poor practices.

Sincerely,
