To the staff at C-SPAN,

I'm eighteen years old and a senior at [REDACTED] in Southfield Michigan. Just as kids my age spend their time watching MTV, I spend my time reading books dealing with the U.S. Government and watching C-SPAN & C-SPAN 2. I enjoy your Viewer Call-in Program, Sunday Journal, National Press Club, Close Up, Gavel To Gavel and other assorted programing. Between these programs I observe the C-SPAN School Bus hoping that someday, before I graduate, the bus will stop in my town. On March 29 my wish came true.

My government teacher informed me a month before the C-SPAN School Bus was to arrive in the city. I was extremely excited the night before the bus was to arrive, so much so that I had a difficult time sleeping. But following school on Tuesday, I drove to [REDACTED]. I patiently waited to enter the bus. Once aboard I was thrilled by what I observed inside the bus. The interior of the bus had three large TV screens and many small TV monitors. The computers on top of the table and the many tape decks and other accessories under the table. You have spent a large sum of money buying, designing, and equipping that bus. With all that expensive and technical equipment you need a staff representing C-SPAN which can inform and entertain adults and students.

You should be proud of Angela, Rich, Dan, Larry and everyone else on the bus. Your representatives were informative and extremely polite when I was on the tour.

They made my tour worthwhile. Will you please inform the C-SPAN School Bus staff that I enjoyed meeting them?

Although I could type on about the wonderful experience on the C-SPAN School Bus and ask countless questions about you and the U.S. Government, I have spent enough of your time. I will try to write to you quarterly and give you my opinion on your programing.

Thank you again for bringing the C-SPAN School Bus to [REDACTED] and the great programing on C-SPAN & C-SPAN 2. Please keep up the good work.
