Please forward this letter to whom it may concern.

Gentlemen:

We are retired people and we live six months in Miami Beach, Florida and six months in Budapest, Hungary.

We are watching CSPAN daily, it is far the best program, with CNN closely following. We get CNN in Budapest and we used to get C SPAN for three hours in the afternoon on the French Channel #5, but it was discontinued the end of summer 1992.

Please look into it why this program had to be stopped. If we could help in any way when we are there we will be only too happy to make any arrangements necessary to bring C SPAN back. We want to be informed of what happens in the U.S. There is quite a large American colony living there.

We are here in Florida till the middle of April and I will be waiting to hear from you about the above.

I appreciate your attention in this matter.

Cordially Yours
