I find it so frustrating to hear you say y ou want to ~~know~~
~~xxxxx~~ know how this viewer thinks about C-Span. If I could
write y ou ~~a~~ the story of my life of 75 years you would know
why I find it so important part of my life, and something I
would have dreamed about if I had ever known it ~~could~~ be
possible,. I am a very busy ~~to be a~~ woman (who can't
type) but I write letters of appreciation to y ou every
single day of my life. When I am listening ~~I~~ I am learning,
and when I am thinking of somthing else it serves as active
wall paper----I don't want to miss anything! My deepest
thanks, Brian Lamb! all!
