Re: C-SPAN coverage of ATHEIST CONVENTION, St. Petersburg, Florida

A cordial THANKS!! to all of you for the showing of some of the Convention!!

But- and it is a big one- any interested viewer, wishing to write for information, was not provided the address.*

I assume this to be an oversight on the part of C-SPAN.

A dependable survey in American thought cannot be made, where Americans are intimidated into silence by religion, and, though he gets a showing of an Atheist gathering, but is not provided the address*needed for writing for information, one remains isolated.

Again, a warm THANK YOU! for the showing you gave us!

Appreciatively
