C-span

The corrupt, mendacious Republican Party is not interested in America.

They are interested in their own petty, bitterness over losing the Presidency.

They sound like clones of Mr. Bush, like weeps, as if they are fine year olds, trying to get back at their enemies.

I watched C-span for several hours this morning, and I advise they watch themselves. Their attitude is "I'll get back at you na na na na na!"

It repulsed me.

They are trying to save their money. Multi-millionaires don't want to be taxed and that's what they are. They invest in foreign countries. They are not interested in poor people's money, they are worried about their own monies.

Who do they think they are kidding?

Every entertainer, Reporter, Sports people,
Rock Artist, Country artist, are multi millionaires
do a show on the worth of these people,
Canadians, foreigners, all multi millionaires

They don't want to be taxed!

So eat the baloney on Americans being
taxed, poor Americans that is

That is why the country is in the
position it's in. The rich are keeping it
all. Not giving nothing back.

They should remember, the money won't
mean a thing if the country goes down
the tube.

Corruption has brought down civilizations
and we are no exception.

I enjoy your contribution in fine
propaning. Thank you.
