

To C-Span the "Thank God for C-Span Network".

C-Span has been the only unbiased way we had of judging public opinion. Now we have lost that because of the telephone line controls you are using.

You get a fair showing of old, young, black, white, ethnic, etc and the liberals shouldn't have an advantage. If you get 100 Conservative callers and 20 liberal callers, is it fair to give them equal time? NO! o.w.j.
