C-SPAN

WASHINGTON DC 20001

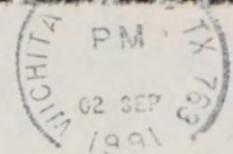

It's too bad that a family has to subscribe to cable TV to receive C-SPAN and C-SPAN 2.

I've heard the same old saying every day - "there's nothing on TV today". If a family is on cable - there's always something on - C-SPAN!

I wish it was possible that each large city had a translator so ^{THAT} many low income families could receive these two important programs. A week of both C-SPAN programming is worth more than a year's junk on network and cable. We have VISTA cable in Wichita Falls and it cost \$21.54 for basic TV. It's now \$260 a year.

What can a person do to get C-SPAN to everyone?
Thank you — [REDACTED]
