

Dear Sir:

cc: S. Trahern ✓

I am writing to make a suggestion. I would like to see a program on the following:

1. Council of Foreign Relations
2. Trilateral Commission
3. Federal Reserve

When was each formed? Was each modeled after an existing organization? What things do each look at and develop plan of action that is put into operation? What source of funds keep each operating? What do 11 wealthy families have in operation? This would be effective only if each one is handled in separate program by someone who has done an extensive study of nuts & bolts of organization and how that organization has been effective or not.
