Dear Sirs:

I think now may be a very propitious time to resume Mrs Lee Hamilton's committee investigation of the oil companies pricing on oil. And perhaps the U. S. Chamber of Commerce program too that I watched on C-Span until 3:00 A.M. recently.

Those two sure set my head on straight about what's going on in both the country and the world today.

May I suggest that you run them earlier in the programming tho? Working people have no chance to catch them while at work, and can't afford to sit up almost all night, and still go to work.

Even tho retired I'm losing an awful lot of sleep lately trying to stay on top of the where and wherefore of what's going on in the country and the world today.

I do enjoy your programming now that you're back on our own countries affairs, and feel you're performing a great service for the country especially now.

It's just a shame that the working public can't cash in on everything that I do that you're putting out lately.

I swear tho if you get that puke of an Amb. from Iraq on again I'm going to be forced to run to the bathroom to upchuck! He's abominable!

Sincerely,

[REDACTED]
