Dear Mr. Lamb:

The Cooperative effort
between your wonderful organization
and CBS is just now over (10:30 A.M.
Saturday) as I taped it and viewed it
today. I hope it is not only over but
that it is forever finished. No more!!

The true story did not
get told of how we, the U.S., tried
to rape & subjugate Iran through
the Shah with our arms, training of
his Mossad goons and economic
destruction by our business men
via Kissinger & Company.

We, the U.S., so the
main contributors to that revolution
o. Wallace

because of our actions (direct) and indirectly by our support of Israel. We have no friends in the area as a result of our Israeli policy. The Israelis did not develop the H-bomb (people killer) for nothing and the other people of the area know that fact very well.

Please do not cooperate with the ^{other} networks again. They have an agenda and their editing beclouds the issue. America needs truth and it is hard to come by as you know.

Sincerely yours,
