What's C–SPAN?

C–SPAN, the Cable Satellite Public Affairs Network, is a nonprofit cooperative of the cable-television industry.

The network's on-air debut in 1979 coincided with the inauguration of live telecasts from the floor of the House of Representatives. At that time, C–SPAN's programming consisted solely of live, gavel-to-gavel telecasts of House proceedings, and its potential audience comprised 3.5 million households. Today, C–SPAN's programming is available in more that 48 million cable television households via 3,764 affiliated cable systems.

The core of C–SPAN's programming continues to be live, unedited telecasts of the House. These proceedings, however, account for only one-tenth of the network's schedule.
