

Mr. Brian Lamb

I watch C-span each Day. I come to the Conclusion that if it's a Politician or a News Reporter it's the same message Coming through these people are tottally out of Touch with the American Population, Were not interested in gay's in the Military, not interested in the Post Office scandal we are only interested in good paying jobs, we want the Gbovernment to stop these American Corp's from moving out of the Country with are good paying Middleclass jobs, we want a law pass that these Corp's that moved out to sell it where they moved it's not Coming back here, an that not protectionism. We want N.A.F.T.A To be put on the 1994 National Election because 80% of the American people are against it, An there trying to shove it down our throats. You don't see t.v. ~~on~~ ^{or} print Media writing Constantly about N.A.F.T.A, Because there all own by millionares an most likely have large stock investment in these Corp's How often do you see any wide stories about these Corp's that moved out an the devastating effect's it had on the Worker's of these Corp's Home foreclosures the largest ever in are Nations History, Divorces families, Breakingup an suicides. These elected official's Don't Care, there only interest is how Rich they Can get
