C Span -

I am at this time listening to C Span call in 9. AM. Once again I am outraged by the fact that you have permitted Rep Robert Dornan to appear on this program.

This man is a fanatic liar as been proved many times by his irresponsible statements. You must know this by airing of the Special Orders during the election campaigns. He made so many false statements on the air during that time that if he had stated those same accusations elsewhere he could have been sued. The ranting

and raving of this man has no place on the mostly balanced program on your excellent C. Span.

He no doubt requested an appearance on the program today and continues his bias and sometimes outright lies. You certainly are aware of this. Through the years I have heard him tell one lie after another on various programs to try to make people think he has had a wonderful military career. I have made a list of the places he has pretended to be at the time of crisis in the government. There isn't a foreign country that he hasn't visited and solved the problem at hand. He also claimed to be an Honor

guard at the casket of J. F. K in
the capitol and the first air force
general at the grave in Arlington.

I have documented these things
and have a list of lies that
would fill a book. He is dangerous!

He just now repeated his
hatred for Pres. Clinton. I have
heard him state this three times
this morning. This man is vicious
and I hope you will consider
this when granting him future
time on C. span. He also has an
organized group that follow him
from one talk show to another.
Please spare us from this abuse.
His appearance on special Orders
is enough - which I realize you cant
control. - Sincerely [redacted]
