Dear C-Span-

As always you are unbiased about
this war. Giving all sides time.

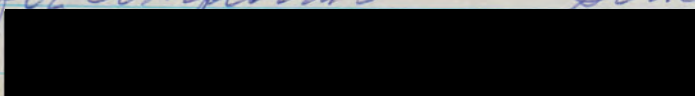

I think this government is made
up of Fool's; Bush did not wait
too see if some agreement couldnt be
reached. Or have a full meeting
with all heads of countries, The
united nation's didnt have a
chance too work.

This government used the Excuse
in Panama of Killing a Service Man.
Reason was to shut up Ortega -
Excuse now is to help Saudi's -
and we. Couldnt Tolerate Hussein
going into Kuwait - We may
never know the reason - But
Id say Big Business Ited.

I get so mad at people in this government, these Congressmen and other talk about oil shortage affecting our Standard of Living. Never much about our service people - They pay the price. Congressmen don't worry - They pay their oil bill, their living is not changed.

As always we loose the men and pay the price - This government flagged Kuwait and we paid the bills, other Countries benefitted - Bush, I hope made a big mistake - The Saudi's and other do not want war - Let them settle their agreement - Not us. This government jump in - tries to plan later - we are fools. I'd like to see Every politician defeated - Congress and Bush thinks it would be a crime if we had to walk or car pool - Cpan is doing this Country a big service by exposing the Crooks in and out of government.

Do you feel you are a dumping ground for complaints - Sincerely
