

Re: Georgie Ann Geyer 3-15-99

On Washington Journal today she proclaims herself an EXPERT on running the Government.

Why don't you have her do a program on sleeping her way to the top? We viewers do have a very good memory as to how she got her husband!

She puts herself out as "oh I'm so perfect" and it makes us (my bridge club) sick to our stomach. AND please don't do Clinton with your series on Presidents. You will destroy him with negative people & negative comments. We don't need anymore doom & gloom. We are sick of negative people against the government day after day! Get A Life!!!
