Brian Lamb, moderator
C - Span

cc: S. Trahern ✓

Dear Mr. Lamb:

I have been engaged and stimulated by many of the topics I have seen on C - Span, but here are a few I am still waiting for:

1. An assessment of Communism, e.g.: a comparison of Russian performance in WW 1 to that in WW 2, and to what extent Communism is responsible for the success of the latter; on the theory that nobody shoots Santa Claus, could the Soviet Union have survived as Communistic if they had laid more stress on putting meat on the table & cars in the garages of the people.
2. Should Congress incorporate a National delegation, voted for by a National constituency (similar to the one that elects our Presidents) and representing the National interest ? This would be in addition to the current slate of State delegations.

Additionally, please send subscription information for C - Span program guide, and a C -Span publication list.

Yours truly,

[REDACTED]
