

C-Span, Suite 155  
400 n. Capitol St.  
Wash. D.C. 20001

I like C-Span because, it lets me know what the people across the country are thinking.

Forever I have wanted to know if I am the only one thinking what I'm thinking about what's going on.

C-Span gives me a chance to hear some other people's thoughts, not just some news man's view.

It's amazing that, with all the high tech. communications systems we have today that people are just as far apart today as they were in Covered Wagon days. And C-Span is the only program that does anything about this.

I love C-Span and I watch it all the time.

Sincerely
