9-5-1997

Dear Mr. Brian Lamb —

I love your name — "O".

I was "drawn" to you —
several years ago before I
realized C-Span was "your
baby" — "O".

I truly hope you continue
to always keep visible on C-Span
you are such a stable factor.

I really enjoy you as an
interviewer on Book Notes —
even when I'm not interested
in Book — Guest — or Subject.

I particularly enjoy Washington
Journal in morning and all
your moderators are so

Tactful - yet so professional & well informed (which is obvious by their guidance & response to callers and guests). You are so blessed to have such people - and public is so blessed - I wish more people would realize that.

I first discovered C-Span during an election (?) when you took all comments from across country. How unifying even in/with differing opinions. I've been "hooked" ever since.

I am a Pennsylvanian - (in W. Va. at present) - taking care of my 97 year old mother who just is unable to "go it" alone - We have Satellite TV - which is not programmed well. I get no news

-3-

except discussions etc. on
C-Span.

I am hoping you carry
alive - Princess Di's funeral
Sat, Sept 6 - at 6:00 AM - That
is what I figured out from
times in paper and C-Span
Coverage. ? (policy)

I just felt you needed an
"atta Boy" as Air Force terms
encouragement - (you know -
a pat on back & "atta boy" - i)

I don't even get to watch you very
much ^{C Power} but was thinking of you
today - Friday afternoon Sept 5.

May The Lord continue to
Bless you & C-Span! The
Country really needs C-Span!!!

-4-

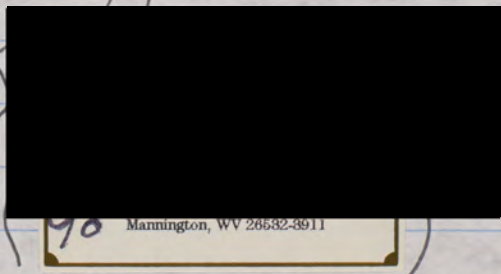

I know this letter -
handwritten - lined
tablet - defies all
business protocol - "I and
I love it! I do my best
things - and get my
best results I and
get my correspondence
expedited - on these tablets.

I do type but too cumbersome &
I do not do "computerese".

again - May God Bless You
and
@ - Span !!!

Sincerely: (ms.)

(currently -)

PSSSSTT...

9-5-1997

Please put C-Span
mailing address on screen
at each program change
for we who do not
call - fax - or do
"computerese" - Thanks!

Tom Wils
