Accuracy in Media:

How can CSPAN I carry programs like the above? The distortions and the lies spread out on this program on Tuesday afternoon, May 18th should not be permitted.

No, not censorship but absolute lies let all share but have opportunities to state facts is needed.

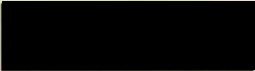

The young preacher A. Elziano has the "spirit" but not the mental resources to share such.

Christians are frequently weird and uninformed. So what? True! Burns!

Please let me know how you arrive at decisions for such programs!

Thanks
