C Span
400 1/2 Capital St N.W.
Washington, D.C. 20001

Ann Braun -

Two months without C Span
made me realize how much you
make the fairly news real - The spin
that ABC NBC CBS and CNN puts on
what they choose to report has made
time spent listening to their news
program a waste of time -

The installer softens the charge
to connect (3 outlets) - Intermedia had
said \$118.00 (which would incl 33.00 first month)
The installer reduced this to 89.00 - Someday
I will find out why they could not get
their act together - Prairie Star said
they have had many problems -

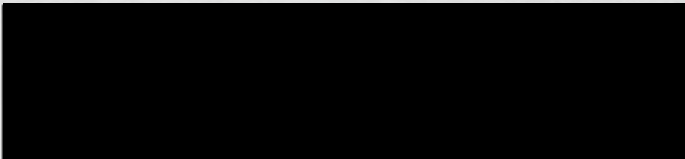

O.W.S R

Direct TV now has offer three months free - If I had already gone Direct at their old offer (1 month free) I would be unhappy now - So I guess I should be pleased to once again have Cable -

As a note - My time at Vanderbilt out patient was a good time spent they found my problem and gave me many long hours to watch TV - They have full cable in every room. C Sporn and C Sporn 2 - Fox and CNA - At Joseph back in Asheville we had very limited TV the 2 weeks I spent in the hospital I got them to consider more options -

Keep up the good work - We still

Have a problem with the CLINTONS
their China Spy should expose the entire
problem that leads to the White House -

18 Mar 99

Connie's coverage of the new
Book NOTES Book was well timed -
It answered my questions on Book NOTES -
The one that you missed UNLIMITED ACCESS
should still be reviewed and included
as it should have alerted everyone
to the mess in the White House -

Now my next project is to get computer
and get on line - The next election will
be the last to be controlled by the bias
press - ad newspaper - Instant media
will make such spin impossible - The
small community newspaper will come back
to its once voice of the People - We have
one here The Review Appeal Brentwood Journal
That beats The Tennessean to the local news -

You are a part of history - I hope Brian
published a HISTORY of CSPAN - Give your memories
attention - with notes and pictures -

Keep up the good work -

O.B.K.T.V.

19 Mar 99

C-Span 2 All Day - Made me
realize what I had missed while
in Hendersonville, N.C. with No C-Span 2.
I complained several times - I should
have done as you described today just
camped out City Hall and the Cable Company
until they got the message - Knowing
what I know now about other ways
to receive C-Span I should have gone
direct or Princeton even then -

At a later date I want a copy
of ~~the~~ ^{the} ~~day~~ ^{the} "Teleunion on Congress"
and "Teleunion on the Public" - Brian
Keep up the ^{good} work - C-Span is great now
but I can see you have ways in
mind to improve -

Woodrow B. Park
