Dear Mrs. Lamb:

I am an avid listener to C-span as I am a senior & now find time to really listen, observe & think about today's world & how it affects me also.

The suggestion by a listener to occasionally have "ordinary" people on your panel is very appealing. I would love to participate should it get that far. Any information re my life etc. would be answered — if requested.

Keep up the great work! Thanks!

Most sincerely,
