Dear Sirs :

Dorothy Lowinkowski (sorry if not spelt correctly - I didn't write it down during the program) is ^{as} guilty of being in denial as she tries to blame others for standing by the President until the facts are brought forth.

She stated at the end of the program that people are not believing the facts. The tapes have not been ^{for authenticity} tested! A reporter on the Larry King show on January 22ND, after listening to 90 minutes of the tape, stated hearing talk of a settlement. One or both of these girls had money on the mind. Ms. Tripp having an agent and being a Republican does not help me believe that she had correct motives to be Taping someone who is suppose to

(2)

be a friend. If any of this is true - only the witness tampering is relevant. My x-husband's affairs were only our business and no one else's. A British reporter said Tripp's name fits her.

This has shown there is a double standard between men and women. I don't remember the American press carrying on so about the news of Princess Diana's and her lover's conversations being taped and then splashed around the world. I felt sorry for her - the press was always too intrusive with her. The subject of sex between two consenting adults is none of our business whether we want to know or not.

Maybe it's time for some men to start suing women for arousing emotions that are inappropriate or

(3)

uncomfortable for them. Some Women
Love to Taunt and Tease.

One picture of Ms. Lewinsky in a
low cut dress shows she is an adult
and shouldn't be protected as a
child if this story is true. I feel
somewhat sorry for her, because either
way this goes, she is going to be
known as a liar. I'm also worried
by the way the press is acting that
she may commit suicide. The press
should take responsibility for the
pressure they put on people in the
news.

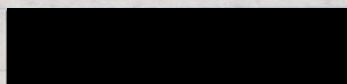

If you live in the real world,
you'd know that in practically every
office there is someone who is a
trouble maker and a liar. Ms Tripp
seems to be one of that kind of person.

It's time to go rent some videos,
because this is all there's going to

(4)

be on television. Thank goodness
the olympics is coming.

Sincerely,

A solid black rectangular box used to redact the signature of the sender.
