Dear Sir:

Our ELECTRONICS DIVISION is one of the leading companies in the field of Satellite TV sales & installation in Switzerland. The undersigned who is one of the founders of the American Club and VP of the Geneva Diplomatic Club, has long been very interested in SAT-TV and its programs.

We congratulate you with your excellent transmissions and wonder why they have to be just a few hours a day. Can't you get more time on another Eutelsat transponder? Or is it just a matter of money?

We particularly enjoy the complete transmissions of congressional committees etc. The one program I and my friends do not appreciate is the frequent emphasis on foreign telephon-calls, mostly platitudes.

Apart from our interest in more coverage, we would like to get advance notice of all programs, either by direct teletext on the SAT or possibly in cooperation with CNN that has great problems in filling up the holes left by US commercials that are not carried in Europe?

Do let us know if we can be of any help with your great work.

Sincerely yours

Dr [REDACTED]
