Dear Washington Journal

My husband & myself listened with interest as you interviewed Jerry Falwell. I tried to call but the line was always busy. We then listened to the next program with the interview with Stephen Smith & a telephone number never came up on the screen.

My view is the same as Jesse Ventura. I was just watching him being sworn in. But over & over he pointed out the importance of being truthful.

Bill Clinton hasn't even got enough dignity in him to step down when he's lied over & over. Ken Starr has been made the bad guy because the Democrats don't know what else over

O.W.J

to do but blame the man
who has done his job +
reported the facts.

What a sad world we
live in, I can hardly believe
what I heard as people would
rather let this man lie
+ get away with it - just
to live the good life of
prosperity. But I can tell
you one thing. This nation
has been blessed - only because
its a nation based on a
constitution that is based on
scripture. If Bill gets away
with these lies + the fact
he has defiled + violated
the highest office in the land.
I can tell you its a stink in
Gods nose + He will no longer
bless this land.

This 70% of the people wanting
him in office has to be a propaganda
report. I know a lot of people who
would say otherwise. Sincerely, [REDACTED]
