

April 6, '84

Dear C-Span:

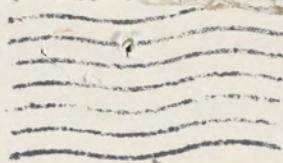

I am a housewife who never finds time to write to my representatives in government nor to TV programs, newspapers and such. I am taking time to write you because 1) I think you really care about your viewers and 2) I think C-Span is the best thing that has happened to participatory government since Colonial Days.

I watch C-Spar:

- to be informed
- for intellectual stimulation
- to satisfy a need to share ideas with someone.
- for the reassurance it gives me that thoughtful + competent people are running our government and are reporting the news and are contributing to our society.
