idents program has  
been outstanding as I am a history buff &  
genealogist (family). I have enjoyed all the  
details and wonderful old houses - until  
black history has taken over. I give every  
one their due but your presidents program  
has deteriorated into useless garbage.

I personally had a wonderful incident to  
relate but was unable to get thru.

My grandfather [redacted]  
was commissioned by a Washington committee  
to create a statue of U.S. Grant 3 months  
after he took the President's seat. Grant then  
said he would "sit" for clay models but no  
statue of him would be placed while in of-  
fice. The newspaper interview I have states  
that Grant smoked one cigar after another &  
talked continuously in the temper of studio  
in Wash. DC. On rainy days, my grand-  
father allowed Egypt or Cincinnati to be

Dear Brian Lamb  
C-Span

Dear Sir: Your presidents program has been outstanding as I am a history buff & genealogist (family). I have enjoyed all the details and wonderful old houses - until Black History has taken over. I give every one their due but your presidents program has deteriorated into useless garbage.

I personally had a wonderful incident to relate but was unable to get thru.

My grandfather [redacted] was commissioned by a Washington committee to create a statue of U.S. Grant 3 months after he took the President's seat. Grant then said he would "set" for clay models but no statue of him would be placed while in office. The newspaper interview I have states that Grant smoked one cigar after another & talked continuously in the temporary studio in Wash. DC. On rainy days, my grandfather allowed Egypt or Lincoln to be

o - Amer Pres

stayed inside the studio. My grandfather  
completed "20 or 30 models" because he seemed  
to enjoy the casual atmosphere and my  
g/father's company.

I am 81 years old, still paint, and in  
either Sept. or Oct. will be present on the podium  
with notables in Cleveland, O, to rededi-  
cate one of two statues done by my grand-  
father 100 years ago. He discovered Cleveland  
in 1878 and Harvey Rice, an educator in  
1899.

I do hope you can add this antidote  
to Pres. Grant's history.

Sincerely,

[REDACTED]

P.S. I tried for 2 hours to get thru by  
phone.
