Most of the people you ignorant show presents as great are too ignorant about righteous realities. The hosts and hostesses are too super naive and stupid. The host and hostesses on your show are so extremely right ignorantly they believe naive stupid phrases like pat buchanan, Robert novel, falselly, bush, Reagan, pat robertson and super pseudo intellectuals like Cal Thomas, Meinandy, thurmond hatch, hyde and their kind are angels of light, and physicians of good values, yet they solve no problems, nor make bad things good, better and best.

We can never move the many mountains that are hampering the correct success needed to give progress, improvement and advancements too best fellowship, brotherhood, relationships. Those creepy soundbites, seems your show presents are too non caring, too stupid, too unrighteously real to be supportive of the best choices of lifes meaning. Your show presents too many false faced, forgers of lies who seem to believe they know what truths about them dont prove. We have too many groping in darknesses, and too many spiritual, mental, physical sicknesses and diseases to believe them creeps are experts. Every human on this earth is fallible. Every human being makes mistakes, talks too much at times, lies at times and dont do the best we know how to do at times. We can all do better by adding or subtracting at times, because we know too little.

2CS

Our world tries to make best progress, advancements and improvements without using good senses, commonsenses, and motherwits. Most super fools of today believe everything can be answered by looking through a test tube, through technicalities and technologies. But the most severe difficulties we face are indecent spirits and minds and tainted principles and characteristics. No test tube, technicality nor technology can truly make us what we need to be like. What is needed are changed opinions, intentions, cares, choices by our inside determinations and desires. We don't need role models. Each person needs a good role model quality within, ruling, controlling opinions, intentions, decisions and choices. That means spiritual and mental needs are necessary and a must, to change planning and thinking ideas, from worse to better even best.

With all the great choices America has it is surprising the nonsensical, insensitive Cackles we elect to rule and control our contributions and distributions. The so called experts tell us to think positive, everything is going to be alright and they are right because the way we are going and doing soon there won't be anyone on earth to worry about. We have liars, incompetence in every occupation, skill and profession, coming on TV. Leading too little learned, totally unlearned, foolishly educated super pseudo intellectual, super idiotic narrow stupid phonies

3) 58.

spoils and minds into severe boredoms, depressions and failures, which causes many to ruin their own lives and others lives. This is part of the reasons of the craving appetites for drugs, crimes and violence.

Bad things are the results of evilness, wickedness taking over our lives through severe hatreds. Your show presents some of the world's worse liars, murderers and propaganda spreaders. I rather believe in Castro, Nurego, Hussein than to believe in anything said by your hostesses, host and guest. Most of your host, hostess, and guest sound like sick, diseased minded, foolishly educated, super pseudo intellectual, super idiots, and most of the callers in sound like naive stupid phonies. Smart, highly intelligent callers are quickly cut off. Decent thoughtful ideas quickly get cut off, because your host and hostesses are so stupid and dumb, they don't want it publicly made known how ignorant they and their guests are. Most guest never consider the questions they are asked with precise clarity. I don't believe they know how.

All the way through history making Conservatives have been and yet are the worse brutal, sadistic, barbaric, amoralistic cruellest beast. Slavery and hate groups, racism, lies and bigotry proves the truth in that statement.
