Dear Mr. La,b:

I realizr that there is a pretty good chance that you may not get to see this, but I feel that I have to make the effort.. I have been listening to CSPAN since it's inception + Two now, and so far have been unable to get thru; but anyway it is the greatest Pse excuse the typos as I am legally blind and cannot proofread.

One nice thing about having channels 1 & 2 is that during votes I can choose between 12M dollar a minute music or the 60N dollar alternative. I know that you have to maintain a "no opinion" attitude, but It does no harm to have certain info re: what others may feel about certain subjects, when you ask a question or highlight some article in a newspaper.

I am a 30-yr retired naval officer + 15 yr retiree of the Calif State Unemployment Insurance organization, add those two with other tating before and after leaves darn few things that I have not been exposed to.

On the U.I. subject now current, back in the early 70's the si tuation was such that the 26 week UI benefits were extended to UI-ED (extended duration) by the State. that was for 13 weeks, than the UI-RE (Federal) was authorized for about 20 weeks; Any claimant that worked enough to earn about \$600 during that year intermittently, was thus qualified to file another 26 week regular laim based on the earnings under the original claim. So, when this approximately 1½ yrs ran out, then it seem as though most figured that that was about all they could expect, so they went back to work, also I will admit that possibly things were better by then.

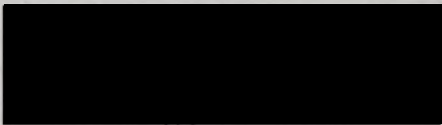

On abortion we are pro-choice, but that applys only to the individual concerned and no one else; and than at one's own expense or their own insurance. It has no place in politics. That is why it is so deadly, like water in gasoline.

On these so-called civil rights groups, they are with a narrow brush civil preference for themselves, plain and simple. I went thru all that EOE and OEO, etc in the state office, and finally one could not get promoted unless he as of color or jad an hispanic name. amd at one operiod with earrings, beads etc.

On the capital gains ttas wuestion + It worked just gre at for yeatrs when short term was 6 mos and any longer was long term, and on long term one was taxed on 50% of the gain. FOR EXAMPLE - I have some acreage out hear Palmdale which I could now sell for 5 times what I paid. Since I would hace to pay about ¼ of the gain to the govt, I will just let it sit there and let my heirs take care of it. So the govt could now be collecting from me about 15M dollars, vust as it is the collection is zilch.

To close out this episode, I agree on the rights of PRIVACY for procreation of the married and the single individuals, as long as that privacy extends clear on down to the unintended or accidental results from that Privacy, In other words if one id goim to have free reign, then do not expect the govt to step in and ruin you privacy in relation to the results of your action.

Resp' and best wishes/

In my Naval Service I was on the staff of many officers who became Admirals and many the JCS, specifically, [REDACTED], [REDACTED], [REDACTED], [REDACTED] (Pearl) and [REDACTED]. Incidentally, my wife and I (deceased) apparently conducted a reign of terror, we were in Tacoma when the bridge fell, we were in Pearl Harbor during the attack, we were in Washn DC when Roosevelt died. I was in the Navy Dept when we moved from Comst Ave to the Pentagon, etc and so on.
