Dear Sir;

I am taking your advice
and am turning off C-span.

When a Knight-Ridder
reporter can say you cannot be
elected to a national office unless
you back aid to Israel and have
the rest of the panel laugh in
agreement, I can't believe it's true.

When Geyer reported Barry's
press conference and quoted him
transposed, I can't believe it's
true.

When Means states that
it is all in order to break
the manna law, give dope,
spend 40 millions Dollars and

entice a man to commit
a misdemeanor, I can't
believe its true

When our nation has been
condemned for breaking laws
by the world court and the U.N.
and yet Means & Geyer say
Bush is a good Manger, I
can't believe it.

When the panel say Barry
is important and Jackson
now is forced to run for
Mayor when he is a President-
ial Candidate, I can't believe
it. When the moderators
say if you want to complain
Don't watch. I believe it
