Dear Sir,

I would like to see the author, Mr Alvin Toffler, in a series of interviews that would explore some of the problems we face. His latest books, "The Third Wave" & "Powershift," have some compelling insights into our economic, political & social situation.

C-Span is an important component in a new era of information & communication. Don't underestimate your contribution to the understanding of the world we live in. I can only speak for myself, but I will tell you some of what your programs have meant to me.

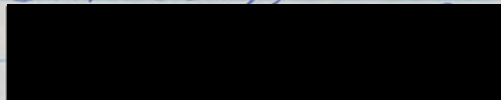

I watched every minute of the following programs - Iran Contra, S & L, BCCI, debate & speeches by House & Senate on Gulf War & most committee hearings, Hill, Thomas hearings, & most of hearings on the economy. I am 63 yrs of age, & even though I spent six yrs. in a University, I have not been enticed into serious reading until the last few yrs. your programs have me back into the books again, & I really enjoy it.

I must tell you that at the end of the Anita Hill & Clarence Thomas hearings, I was awake until 4 in the morning. I decided that the weight of the evidence, as viewed through my 63 yrs of experience, dictated that Anita Hill was telling the truth. I was enraged at the treatment she received. There was plenty of blame to go around, but Senators Specter, Simpson, & Hatch, in my opinion, should be in another line of work. It is my belief that when election time comes, you won't see them reelected.

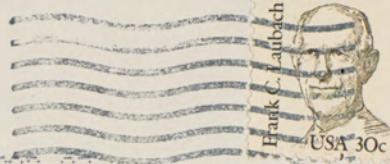

People can't understand complicated issues & reach intelligent decisions without exposure to facts & ideas. There is no question in my mind that we are involved in a time of revolutionary change. The question is, how fast & in what direction.

We need you & your program. Thank you for your efforts.

Sincerely,

St. Petersburg, FL 33710-4221
