Dear Sir:

I happen to tune into your coverage of D-Day. It was an excellent coverage of D-Day.

What I'm looking for is the Address to send the information on the soldiers who landed on that beach. There was a thing on TV about the wall they are building there and they want all the names of the men who landed on that ^{Omaha} beach. They want their name, rank, division & where they are living today. I have this info on two of my brothers and would love to send it, but don't know where to send it.

If you can be of any help to me I sure will appreciate it
Thank you so much
