C-SPAN II

10/11/90 SRV
OCT 04 REC'D

Thank you very, very much for showing on C-SPAN II (Channel 3 here) the speech President Bush made to the Iraqi people and finally being able to hear Saddam Hussein's speech in the U.S. Unfortunately, we didn't get to hear the end of Mr. Hussein's speech - at 12 noon it got cut off this channel - but we did see the major portion.

C-SPAN II and Brian Lamb do a great service on getting into this country some unbiased reporting - it's rare today - in fact with all the horrible distortion from the news media (TV & print) it is hard to get uncensored information to hear both sides. Thank goodness for C-SPAN and such programming as above.

Truthfully, I was embarrassed about Bush's speech to Iraqis about their previous war w/ Iran - it was our Country playing both sides and now he stands ~~there~~ there and delivers such a speech - I think we have forgotten what "honor" is all about and are sick of name calling by our government officials - we teach children name calling is "nasty." I have lost respect for the press because they all report in "lock-step" whatever ~~the~~

the White House decides to hand out.

In concern we have moved towards
"freedom for the press" rather than "freedom
of the press" — the public is not
being heard!

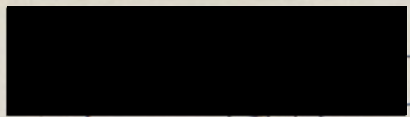

That's why C-SPAN is so vital in today's
world — we have a Congress so far removed
from the people w/ we can only to special
interest(s) — let us get all information so
we may decide what is right for our country!

Again, another thanks for your great
programming — please continue to give
both sides to all events no matter how
much pressure is brought to bear —

Thanks again and
most sincerely —

P.S.
No other major
network delivered
Bush's or Saddam Hussein's
speech in its complete text,
imagine, none other than
C-SPAN — everyone should
be frightened about getting only
poor over spots!

When does the West
Coast get a break on the
call-in show w/ Mr. Lamb?
5:30 AM — you're not even
functioning!
