

928-90

C-Span
Washington

FEB 20 1990

MAR 08 1990

Dear Sir:

When one wants to learn how crooked and corrupt C-Span is we must look elsewhere than the mainstream media.

One of your major contributors is DuPont.

C-Span refuses to cover exposés that criticize Bush, our corporate reactionaries or DuPont. C-Span works to hide the immense corruption at the EPA because it cannot be blamed on a Democratic Congress.

The EPA is more corrupt than the Pentagon.

The EPA uses a waste industries cover organization called "Clean Sites"

to serve as a mediator when settling disputes over toxic waste dumps that the FOXES at the Agency want to okay but are objected to by local residents who are being poisoned.

This so-called Clean Sites group has as its largest corporate donors: Dow, Monsanto, Shell, Union Carbide, GE and DuPont. (\$100,000 or more donated by each firm.)

The EPA unbelievably sets aside SuperFund TAX money to insure the Clean Sites organization against costly lawsuits.

Thus do the hypocrites at C-Span serve the democratic process in America. Just another tool for the corporate criminals.

Yours truly
