Sir

On my Cable, I listened  
intently about Consideration  
of Energy Bill. What a  
hazze. What was it all about?  
Politics pure & simple. Right?!!  
Wondering whose Special Interests  
held sway. Alaskan Pipe line still  
being talked about.??? What are  
we paying Members of Congress for?  
We are so exposed to blackmail  
our source of Energy. I remember  
long lines. 70's. Eleven years in  
the making. No Clean Air Bill yet!!

I agree with Bush. Congress  
is not attending to the Country's  
needs only what will save their  
jobs (Liberals).

6/27/08

Just heard William Taylor  
sworn in to head FDIC.  
What a task there.

I remember (as Bankers wife)  
writing to Sen. W. Proxmire in  
70's about Banking - no  
reply. He had oversight as  
Chairman of Banking!!

So, no oversight we got  
S+L HUD, FSLIC, FDIC  
& Student Loans in Default.

Pres  
My 1st vote - occurred F&OR  
& his Packing (wanting to) of  
Supreme Court, so he could manage  
Great Society Programs. So Liberal  
Congress in Control of both Houses  
for 40+ yrs have spent us into  
Defiant Trillions getting elected  
each term. Now Treasury is  
empty & "they" blame Oval

Office.

Is it true by a stretch of imagination or no, that Liberals are holding "out" the embarras White House come Election. I have no desire to vote for the Liberals. They "are" desperate to get into Oval Office. All Liberals lined up. The Constitution gives Congress Legislative Power & Power of the Purse. They can't do anything because they are old, old time Religion as they say.

Remember Reagan & his

Iron Triangle (The Big Spenders wouldn't want to cut expenses to Media & Special Interests, & Liberal Dem. Control of both houses for 40+ yrs. Great Society Programs of FDR are home to roost - creating the Deficit.

Take care of Deficit

V I have an idea Mr Burns  
has baggage to carry. So he  
coasts along to be drafted &  
then with Security Men, he  
could stand in place. Otherwise  
he would have to plough the  
fields till Election Day.

If what we heard, if it is true,  
his baggage is too heavy.

The Electorate does not need  
his kind of trappings.

His silence has prompted  
me to suspect the truth.  
He knows he'll have to "cough  
up" as they would say..

A caller comes in with my own  
idea for long time. How about  
leaning on Liberals. Sen D Mitchell  
took place of Byrd & Byrd

(3)

of W. Virginia As Chairman  
of Appropriations he saw to it his  
State rec'd Millions - Offices etc;  
CIA Bldg immense example.  
The now <sup>Sen.</sup> G. Mitchell is a puppet  
up & up anti Administration, only  
thing he knows.

11/12/91

Just now Lady caller is so right  
Democratic Party is out of touch.  
The Media + it are bashing around  
Pres Bush - it gives Bush an  
edge. She says "you all" Coddle  
Democrats. I found out to get on  
line we are asked our "topics".  
So now profit you say? Then  
you fall into Don Triangle  
Media + Special Interests, + Liberal  
Dem Controlled Congress of both houses  
40+ yrs

My Spouse said quote, "Lawyers who can't make a living on outside get elected to Congress for Life."

Pres. G. Bush is doing his job. That is National Security. Congress does not do its job Legislative & it has Power of Purse. So sit and do nothing & bark at President sound cute? Watch Reporters faces as people callen, "They" know who has the right ideas.

This I thru 3 wars, undeclared pd for by LBJ & a Depression, "out of 55 Truett Fuffel."

I remember Pres FDR gave away our Sunday Shirt at Tehran. My 1st Vote Pres. FDR wanted to Pack Supreme Court to help finance his "Great Society" Programs. The Entitlements they are called today come to roost for want of money. //
