Subject

C Span II is shown on my
Cable station #23.

I pay for this cable - and I am very
upset and let more in Oroville area
feel the same way.

As an example - this Ch 23 - C Span II
is periodically just switched over
to Butte College bldgs. They show
anything from gardening to Church
services (in the right place.)

I watch C Span & CNN all day long.
How the cable in shows all
hosts are excellent. (Esp. Brian Lamb.
I watch Road to White House
and Rauntable Journalist -rite
in the middle of programs we
hear a click & its taken over.
Now this cable I am paying for.)
(over)

Present this especially with a
Pres. Election coming up. Why
can't they give Butte College another
Channel?

For instance this last week
end they took it over Friday
Oct 4th most of the day and
Sat & Sun Oct 5 and 6th. They
had this Channel all day both days.
I complained to manager
noahs - when I call they tell
me it is just set up this way.

These other networks have very
few good programs since
CNN and ESPN.

We need to know what is going
on in Wash. We had better know.

I have tried. I complained and
resent them taking the ESPN
programs off air this way.

I wrote to FCC. Their reply was
they could do nothing.

I sure hope you can help me &
hundreds of Oroville residents

I appreciate your card of 9/25.
Made me feel there may be hope
some where - somehow.

This is Videcom Cable on
Meyers Street - Oroville, Cal 95966

Any help will be greatly-greatly
appreciated as I am paying for
something I can not get when
I want I then to get it taken off
me so rudely in middle of programs.

No notification - just zap & my
programs are gone. This happens
every day, 7 day week.

I am a C Span Junkie and I
am very upset they are getting
by with this
Your programs are excellent both
educational and interesting.

Please give me hope
Thank you,
