Dear Folks,

History lesson #993 for Brian Lamb and the kids - (America's notorious underachievers).

In 1853 some greedy Yankee Calvinist Capitalist Blue Nose cowtossers sent out an earlier General Westmoreland-type Bully Boy, using an earlier version of Gunboat (or carrier) diplomacy - to invade or "open up" ancient feudal inward-looking Japan to the "Blessings" of American "business", trade and commerce.

His name was Perry, one of our oldtime jingo heroes.

This was done brutally and by threat of force (sound familiar?) - the same aggressive thieving mentality that "won" the west and brought U.S. Capitalist Gunbels, thieves and holy hypocrites on to the world imperialist stage and began our colonialist aggrandizement in 1898.

Calvinist holy greed and phony
holier-than-thou invasions at
gunpoint - but always for a
RIGHTEOUS Profit!

It is only justice that the
Orientals - who are our Superiors
in all things civilized, moral
and ethical - have seized the
opportunity and historical
momentum to give the inferior
backward U.S. foreign hairy
Barbarians an Education.

(Next time = How the CIA - under
Dulles and Ike - set up the Shah
for a FALL - 15 years before
the fact.) (1953)

A pleasure to be of Service -
(and boy - do you need it!)
