Gentlemen:

This is another one of several letters I have written to you, primarily because I could not afford to call your Washington Journal and pay for the required time should I be asked to hold.

Bob Bennett's remarks to the media will insure that he becomes the Johnny Cochrane of the future for his defense of the President. If extra-curricular sex is okay for Clinton then it must have been okay for Bob Packwood. And it sounds like Hillary is reading from the same script she used after the Gennifer Flowers matter.

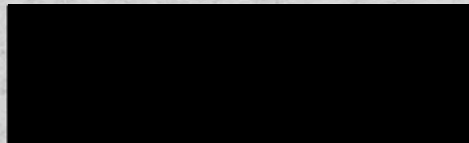

"Taking the oath", whether it is in court or as a Congressional witness, is a waste of time. Scripted by their lawyers some individuals will lie if they want to and hope they won't get caught.

Stan Greenberg was a recent C-SPAN guest, a favorite Clinton pollster. He is also married to Rosa DeLauro a Democratic Congresswoman from Connecticut. You know - the one who is always giving the "one minute speeches", jabbing her finger, shaking her head and generally belligerent. Makes one wonder who the hell voted for her.

What is to stop these two from calling all their hangers-on and telling them that Stan is going to be on C-SPAN and they should phone in questions that would enable him to push his and DeLauro's agenda? They would also help to crowd out the calls of anyone who might think differently.

Regarding polls, if you want to take a poll that would come out in favor of Bill Clinton or the Democrat line, take it where the Democrat registration is heavy, and only there. The results are a foregone conclusion. Greenberg would have registration figures.

Sincerely yours,

Ft. Myers, FL 33917
