according to him, everything is Milosovic's
fault - personally, accords at Rambouillet put
Serbs in untenable situation (maybe NATO needed
an excuse to invade a sovereign state!) I
really resent this (1) person format - you're
giving these guys (+ gals) a nice little unopposed
format for presenting their agendas, NOT a
full + fair presentation of Facts ✓ this whole
NATO nonsense is a frasco; our airmen can't even
train properly in Apaches, let alone fight them! We're
running out of Ammo - the costs are 'atrocious! We're
the BAD guys, cowardly bombing Belgrade from 30
thous. ft. up!! this does NOT make we a proud
american!!
