

Called 'in. depth coverage' one hears
about so much and so often and so
rarely seen or hears.

I have loads of questions, also a
very fragile psyche. If I called, all
you would hear would be a hefty
'thump' as I hit the floor in a
dead faint. I'll just have to wait for
your callers to ask them.

AND - your music is simply scrumptious.

Happy Valentine's Day to everyone at
C-Span - seen and unseen.

In my book all of you deserve a great
big 'THANK YOU' from all the people
of the United States.

You come closer than all the rest
of the media to providing ^{THE} so -

P.S. Please forgive the lack of a
heading - I was searching out
your address.

P.P.S. You really do a great job
and provide a fine service.
