

002524 MAY 1993

Mr. Lamb,

I would like to thank
you for helping closeup
students produce tv.
programs to be played
on C-Span.

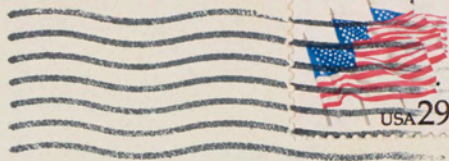

Thanks,

COMMON LOON
(*Gavia immer*)

Original Art by
Maria Morando

Native to the northern part of the Northern Hemisphere the Common Loon resembles fossils of birds which lived 50 million years ago and is therefore considered to be among the world's most primitive birds.

Mr. Brian Lamb
