The Journal Round
... caller stated the Congressmen
passing the Assault Weapons Ban were "Jews".
Mrs. Swain kept asking him what his point was
on religion having to do with it. He kept
insisting his point was not about religion, but
she persisted on that line. I think we can
really do without this kind of thing. With so
much Christian and Jewish bashing going on
in our society we don't need a quality show
like C-Span being a part of this. A woman
caller pointed this out to Mrs. Swain, but
I don't think she got the point.

On another question I have, this same
woman caller stated on page 842 I believe in
the crime bill, that the President would be
able to come in our homes without a warrant
and remove all guns if we have them. This
statement was not even commented on like
it had no importance to the American people.

Would C-Span check this out
and let the American people really know
what is going on? I would really appreciate
an answer.

Dear Mr. Lamb

On Monday morning, Aug. 22-94 Mrs. Swain was the host on the Journal Round Table. A gentleman caller stated the Congressman pushing the Assault Weapons Ban were "Jews". Mrs. Swain kept asking him what his point was on religion having to do with it. He kept insisting his point was not about religion, but she persisted on that line. I think we can really do without this kind of thing. With so much Christian and Jewish bashing going on in our society we don't need a quality show like C-Span being a part of this. A woman caller pointed this out to Mrs. Swain, but I don't think she got the point.

On another question I have, this same woman caller stated on page 842 I believe in the crime bill, that the President would be able to come in our homes without a warrant and remove all guns if we have them. This statement was not even commented on like it had no importance to the American people.
