Dear Brian

I must right to tell you how shocked I was by statements made by the guests on "Journalists Roundtable", Fri. Oct 29. When a caller asked why Ross Perot was being refused the sale of air time, one of them said it was because "they (the press + TV media) were bored with him". Such arrogance!

The public is being inundated with pro-NAFTA rhetoric. Is it a conspiracy? I have yet to hear anyone in support of NAFTA who feels their job is at risk of being sent to Mexico. Perot is the major force behind the anti-NAFTA movement. Please have a debate between pro and anti reps, where labor, environment and consumers are included. Have it before 11/17. Thanks!
