

April 16 1984

I watch C-Span because 3000 miles separates me from WASHINGTON and the local daily prints only the most interesting news and a reporter's opinion is not first-hand.

To me basically, C-Span covers the happenings in the HEART of our great Country. All pertinent laws essentially begin life in Washington and we rarely heard about them being proposed, their sometimes very vocal debates etc until C-Span! Wow - to be right there in my TV room witnessing what our elected officials do, or, don't do!!

I also enjoy every opportunity to hear U.N. debates and especially to listen to our Mrs Jean Kirkpatrick. She is one terrific lady at calling the "shots" as she sees them - no timid Minnie Mouse is our Jean! Without C-Span her image would have always remained blurred in my mind and the knowledge of what goes on in the UN would also have been blurred.

Also enjoyed are the Press Club meetings, the debates, open phone line etc which C-Span covers. These allow me to assess what Americans are thinking and I find my opinions are not too far off -

C-Span has presented more history in the short time I have had cable than the papers have printed in the past several years -

C-Span keep on "C-ing" - we need you

so we can think more clearly in our
elections and in our daily assessments
of our elected reps - You get us to
THINK — that alone is worth
an Emmy -

So C-Span please keep on "C-ing".
