

Dear C Span

You are doing a "Good Job" destroying Bill Clinton as our Newly Elected President and Commander in Chief - until Nov. 3rd 1993, I thought there was no other Broadcasting media as "Fair" as C Span - but it all changed after the election - by your selections of Reporters, and selections of Congressmen and Economists - They all are Clinton Basher - I think your callers are farmers furnished by Russ Limbaugh Pat Robertson and Jerry Maguire - keeping callers off your call-ins that were for Clinton or at least give him a chance to do something for Our Country - The last 12 years have been on Foreign Policy - 12 years of Infra Structure neglect even though the sin taxes and gasoline taxes were collected for repairs or rebuilding - it was supposed to be kept in a Trust Fund to be used as needed. Now Our New President wants to repair all that neglect - but the Republicans who your interview on your show - your cameras catch every word coming from the mouths of Bob Dole and Phil Gramm. I think C Span is trying to recall George Butch who spent 12 years of

Cross Crossing the Globe as a Police Extremist
After Building up Saddam Hussein's Arsenal
and practically invited him to invade Kuwait
and as far as lying to the Public - go back
to George Bush's first year holding up a Bag
of C ordaine saying he bought it across the
Street from the White House - check your tapes
He send his aides all over DC trying to
~~laugh~~ buy that bag - Then when he went
down in the Poll - his Ambassador in Iraq
practically told Saddam Hussein to go ahead in
his march into Kuwait - If you don't believe
me - why did they recall the Ambassador and
hid her and shut her up - no body got an
~~interview~~ interview to ask her about her memo to
Hussein. You see I am an avid viewer of
C Span, CNN and Headline News - How about
the lies of why Bush took our military into
the Persian Gulf to defend Kuwait - first it
was to protect the oil that George Bush or his
sons were involved in - then when they wasn't
getting any response from the voting Public - then
Baker said Jobs, Jobs for Americans - that
didn't go over very big either so then the
Kuwaiti Ambassador in the U.S - had his teen
age daughter get on TV tearful eyes and lied to us
about the babies in incubators in Kuwaiti Hospital

were dumped on the floor to die - That finally got to the American People - Now, I ask you has Clinton told any lies that top what George Bush got away with?

Well - I have written several letters recently telling you of your unfairness. The reporters you had on your call in shows that investigated Reagan and Bush on October Surprise, The Iran Contra Scandal, The theft of "Promis" from the Joxlaw Co" and the Investigative Reporter who had a Portfolio on this theft and had the evidence died mysteriously, was embalmmed before notifying his family and a Congressional Cleonov were called in to wipe away any evidence - get rid of the Portfolio before letting in investigators - why? since our New President was elected those investigative Reporters have never appeared on your shows - and all those crimes have been covered up - no solution - just left hanging and people like me who wanted all of those Problems solved -

I would like to ask you - Why did Clinton win the Presidential Election? Why didn't Bush win a second term? and Why since you love Perot so much why didn't he win? We certainly saw enough on him before the election. Will I get an answer? Sincerely [redacted] Liberty MD 64068
