Too often on Radio or TV News
we do not get all the News
or the true facts. I'd love
to see a Round Cor
debate news series. To hear
both sides of all issues.
Such as

1. Why Congress allows over
Half a Million permanent
Aliens in the United States
each year when we face
Mass Unemployment, Housing
Shortage, Homeless families,
Higher Welfare Cost, Higher
Taxes
2. Why Congress will not adopt
Canada's National Health
Insurance Plan which is
superior to what we have
here over

3. Why we do not abolish the Cabinet Department Housing Urban development each State should handle its own housing Problems
4. Welfare Let each State take Care of its own Welfare systems
5. Have Rule For Towns and Cities we need and more States Right The Federal Government should not interfere
6. Congress should settle the Social Security With year Retirees age 65-1917-1921 Some Members of Congress admit an error was made if this is true then solve the problem now through a COLA Cost of Living adjusted to allow 10% or 20% more on COLA to Match retirees over

7. If the Congress Can regulate Cost on food by paying farmers subsidies not to produce foods dairy foods Plant food meats then Congress Could also regulate Cost on gasoline and oil
8. Why should non-tax heating oil price be as high as Tax gasoline
9. A forer Amendment that all Federal Judges be appointed to four (4) years terms may be reappointed four (4) more years. A one against life terms and served till age 70.
10. The Federal Government should pay 100 percent Cost for all Aliens in State Prisons and on Welfare in each State. a good job was done to screen Aliens coming here over

11. I have less Confidence
In the Congress and the
U.S. Supreme Court some
times I wonder who is
running our Country the
Congress or the Lobbyists
12. I never believed in the
free trade International
System I prefer a balanced
Trade System in order
to sell our goods overseas
on a fair exchange
13. Crime Waver and Cheaper
are no longer safe from
Criminals at Home on the
Streets or the Parks its
time for a severe Federal
Law to protect the
people.
14. I favor the Construction of
a Prison system on the
Aleutian Aleutian Islands
Chain off Alaska for
those serving 20 years to Life
over

14. Continued
and allow States to Board
their prisoners there, build
Stockade wooden Prison and
housed by In Mates under
Skilled workmans; used
the men in the Military
to run these prisons
15. due to Mass Unemployment
the Federal Government
should re-establish the CCC
Civilian Conservation Corps
of the 1930's for youngsters
age 17 to 30
16. The Congress should make a
study on Geo thermal
Energy from inside the
earth now used in Iceland
and Hawaii.
17. Out of garbage fuel could
be made as Kern used
for fuel to run Auto's
or farm machinery called
gasahol
over

-6-

18. The Federal Government should pay 100% Cost of High School Junior ROTC Reserve Officers Training Corps a Poor Town cannot afford the Cost. In our Public School System we must insure equal education for all our Students

Sincerely Your

Retired age 70½
