"CONGRATULATIONS"

You have finally excelled to the pinnacle of censored and discriminatory political broadcasting tactics. You have earned your place in the sun with NBC, CBS, and ABC.

If you think the public is so stupid as to except the "cut off because of technical difficulty" routine, your crazy. Not even a good try. The speech by Mr. Reagan on 10/30/92, was getting to hot to handle. "ZOUNDS", the "cut of due to technical difficulty" sign came up in 1.5 seconds. Hell I couldn't have braked my car in an accident that quick. That's the third time your boys pulled the plug. At least the other times it looked like an accident. Now that I have been alerted, I can recall many other plug pulls during congressional sessions. As a matter or fact

every time it happened the Democrats where getting there heads blown off. Humm coincidence, I don't think so.

It grieves me to think that even C-SPAN has finally degraded itself. I am a firm believer of freedom of the press. But that freedom should not be abused and used to defraud and diminish the publics point of view. I can only say I have told everyone and anyone who will listen to beware of biased and discriminatory broadcasting by C-SPAN. It is really to bad, you really had something good going for you.

Very disillusioned and disappointed
